Prices Realized do not include the 10% buyer's commission.

There were 405 lots. 395 lots were consigned by 20 members, and 10 lots were assembled from the donations of many members.

Bids were received from 36 members. Successful bidders (at least one lot) numbered 31. 286 lots (71%) were sold.

Subject to collection, below is the accounting summary.

CONSIGNORS

Consignments are accepted from members of the MCS in good standing. A non-member may consign once, but subsequently must be a member to send a second consignment.

Consignors share with the Auction Manager, the important accountability effort of uniting their name to each item consigned. Smaller consignments will be administratively processed by the Auction Manager, however, before submitting a consignment of a substantial size, i.e., more than approximately 40 individual items, consignors are to contact the Auction Manager in order to be sent an appropriate quantity of consignment slips imprinted with the consignors name & date. The consignor is then to complete the respective slips by providing two pieces of required information, i.e., the postmark town name and the postmark date. Beyond this, consignors can also opt to provide additional information on the consignment slip, as they may be aware, e.g., manufacturer, type, special dates, usage, die number, or anything else that assists with the description or affects value. Reference to a published catalog, with the page number, is helpful.

Consignors have the option of setting a minimum bid (MB) on submitted items. If an item is to have a minimum bid, the item should be of sufficient significance to warrant a stated minimum bid of \$5 or more, and the desired minimum will be included in the lot description. Auction lot descriptions will not include references to minimums of less than five dollars. The Auction Manager, at his discretion, may also set minimum bids.

Consignors receive, at their option, a list at each auction of the lot numbers consigned by them, in order to finalize reserve minimums, and avert dissatisfaction with price realizations.

Consignment items are individually reviewed for quality and salability, and vie for the limited number of lots that can be listed. Acceptance or rejection of each submitted item, subsequent selection for the queue, and the choice of auction in which to be listed, are among the discretionary responsibilities of the Auction Manager.

Consignors are charged a commission equal to 10% of the successful bid, on consigned items sold.

Consignors receive, within 45 days of the auction closing date, a summary sales report of their consigned items, together with a settlement check.

BIDDERS

Bids are accepted from members of the MCS in good standing.

Bids may be made by postal mail or by e-mail. All bids will be held confidential.

Bids sent by mail and postmarked as late as the closing date, will be accepted.

In the case of tie bids, the earlier postmark (or e-mail) date prevails.

'Buy' bids and 'plus' bids cannot be accepted.

Minimum Bid (MB) per lot is \$1.00, unless specifically enumerated; when enumerated, it may have been set by a consignor and may represent one of several theories of value. A relationship, therefore, between the minimum bid, your sense of valuation, and the ultimate realization, may, in some instances, not be readily rationalized.

Estimated Value (EV), if enumerated, is solely an opinion of the consignor or the Auction Manager. It may be provided if a circumstance merits it, for example, when an offered lot cannot be readily associated with a published, or current, catalog or reference work which specifies value, or when an offered lot has a characteristic that may not be readily observed.

Bidding increments are: \$ 1. to \$ 10. \$.50
\$ 10. to \$ 100. \$ 1.00
over \$ 100. \$ 5.00

Bids that do not conform to these increments will be reduced to the next lower increment.
For example, \$12.50 will be entered as \$12.00.

Terms & Conditions of the Auction page 2 of 2 (published each January) (revised 11/02)

BIDDERS (CONTINUED)

The successful bidder is awarded the lot at one bidding increment above the second highest bid.

A commission equal to 10% of the successful bid will be added to the successful bid, and is payable by the buyer as part of the total purchase price.

Bids as received by the auction manager do not include the 10% commission paid by the buyer.

Within the lot descriptions, the stated condition of the cancellation, and of the cover or card, are --- for consistency purposes --- the responsibility of the Auction Manager. The condition of the cancellation is indicated first, then the condition of the cover or card.

For example, F/VG means a fine cancel on a very good cover.

Condition of the cancel (consists of the postmark and the stamp invalidator)

VF = Very Fine; all letters and cancel are virtually perfect.

F = Fine; letters and cancel are well imprinted, considerably better than average.

VG = Very Good; letters and cancel well imprinted but perhaps some lightness or other defect.

G = Good; some defect, such as some letters or portion of the cancel are light or not imprinted, or the ends of lines or bars are run off the right edge of the card or cover.

P = Poor; merely an identifiable and countable example.

Condition of the cover or card

VF = Very Fine; attractive, no faults.

VG = Very Good; minor fault such as toning; not described.

G = Good; some fault, such as opening reductions; described.

P = Poor; doggy; faults; described.

A lot, which has been inaccurately described, may be returned for full refund, provided such a return is made within 15 days of receipt.

Photocopies of lots may be requested by mail only. Cost is five cents cash (not stamps) for each individual item requested to be copied, plus a self addressed stamped envelope (or cash for postage).

Invoices will be mailed to successful bidders. Payment is to be made within 15 days of receipt.

Lots are mailed at the cost and risk of the buyer. On your bid sheet, indicate the class of mailing desired, if other than U. S. First Class Mail. Forwarding charges are included in the invoice total.

'Prices Realized' will be mailed to all bidders, and will be published in the following *MCS Forum*.

Descriptions are in accord with the following references: Langford, *Flag Cancel Encyclopedia*, 1976; Langford, *Doremus Cancel Encyclopedia*, 1988; Morris & Payne, *Barr-Fyke Machines*; Morris & Payne, *Barry Story*; Stratton & Payne, *Leavitt Cancels*; Billings, *Universal Cancels*. Titles will be gladly added to this reference list at the suggestion of authors, consignors or bidders.
